CNM
International Central Registry
Labrador Retrievers Clear of Centronuclear Myopathy

The Labrador Retrievers on this International official White List have had their DNA tested as clear of the mutated gene for Centronuclear Myopathy. For more details about the disease and the CNM DNA Test researched and developed by the Alfort School of Veterinary Medicine, please browse the left menu. This page is the only official list of clear dogs available.

Owners have received an email notification with an Alfort School of Veterinary Medicine individual certificate prior to their Labrador being placed on this list. Canines not passing are not listed and kept confidential at the Alfort School of Veterinary Medicine.

The purpose of the White-List is:

- For breeding decisions
- To check historic CNM clearances in pedigrees
- To check CNM clearances on littermates
- To check CNM clearances on parent's of a pup being considered for purchase.

The list is continually updated. The last time the list was updated was **2009 Jul 23rd**

You can search for a dog using the "Search Box" below.

The easiest way to do is to enter **ONE** word from the dog's name.

or at least **three** characters (letters or numbers) from the Registered Name or the Call Name.

Truncated names are accepted (e.g. "Moon Palace" will be found if you type "Palace").

Alternatively, enter at least **six** characters (letters or numbers) from a National Kennel Registration Number.

Enter Your Request:
